Who can be a volunteer?

If you like meeting new people and volunteering in a dynamic and sometimes fast moving environment whilst ensuring process is followed then you'll love this opportunity. With a chance to learn more about stem cell donation and the process. There really are few better feelings than knowing you have helped someone become a potential lifesaver!

What does a Volunteer do?

Without incredible donors we couldn't save lives. Volunteers make sure potential lifesavers know exactly what they're signing up to and support them to navigate the registration process. The donor recruitment volunteers are absolutely crucial to making these events happen, from welcoming potential donors as they arrive, to explaining what donation involves, support filling out information, helping people with doing their cheek swabs and generally ensuring events run smoothly and donors have a first-class experience.

Where, when and for How many hours?

The event runs all day but if you can only do a few hours that is also great

Venue: Cranford Community college TW59PD

Date: Sunday 21 August 2022

Time –11.00 am to 8.00 pm

Will the volunteers be trained?

Anthony Nolan will train the volunteers prior to the event. This will be via Zoom for approx. 1 hour. If you have any questions please email RegisterDevelopment@anthohnolan.org
